### **1. Changes**

The first fundamental change we have done is to reduce the number of relationships for the sake of simplicity and to have better control over the database. Ones we discarded are as below:

- Coaches - works\_for - Countries
- Transporters - athlete - venue → transporters - transports\_athlete - athlete
- Transports\_coaches: transporters - coaches - venue

Second major change we have done is to reduce participation constraints in a way. Instead of a relationship having participation constraint on both sides of entities, now it has constraint only on one side. We have done this change so that inserting such an entity into the database is less troublesome. Relationships we have changed are as follows:

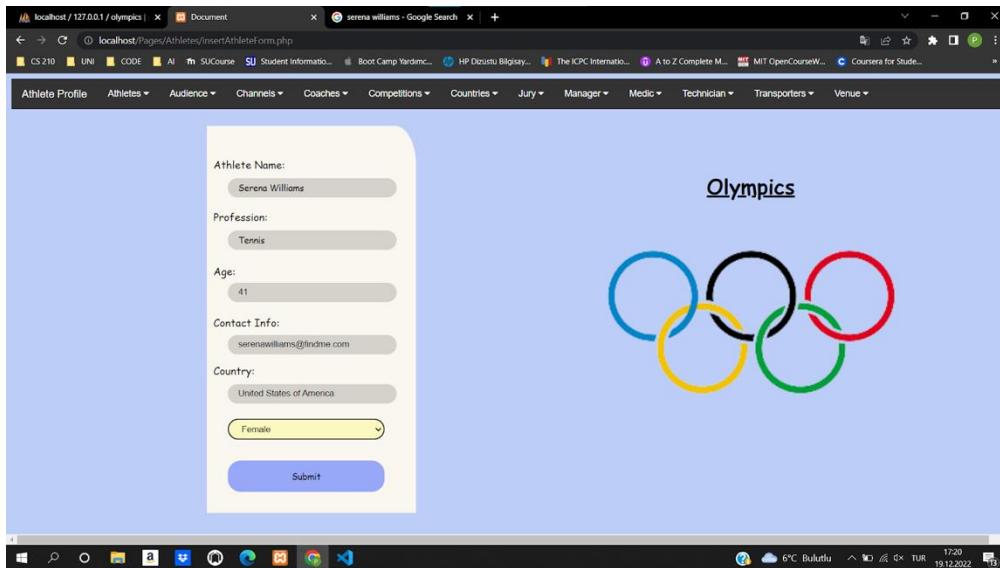

- Coaches — trains — athletes → Coaches — trains — athletes
- Medic — responsible\_for — athletes → Medic — responsible\_for — athletes
- Jury — evaluates — competitions → Jury — evaluates — competitions
- Technician → responsible\_at — Venue → Technician → responsible\_at — Venue
- Transporters — transports\_athlete — athlete → Transporters — transports\_athlete — athlete

( — : participation constraint, —: without participation constraint, → : key constraint )

Some other changes we have done are dropping the foreman column in the evaluated relationship, dropping time column in transports\_athlete relationship, making country and venue names unique so that insertion and selection are more semantic. Finally, instead of using some strings as keys for channels, transporters and country we have decided to have numeric based ID values.

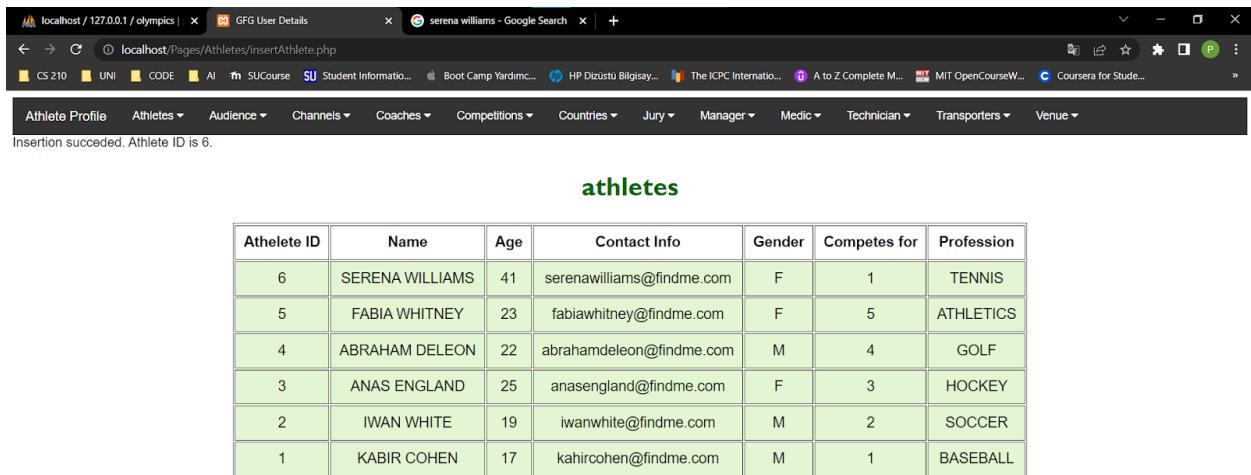

## 2. Screenshots of Webpages

### Athlete:

A screenshot of a web browser showing an 'Athlete' insertion form. The form includes fields for Athlete Name (Serena Williams), Profession (Tennis), Age (41), Contact Info (serenawilliams@findme.com), Country (United States of America), and Gender (Female). To the right of the form is a large graphic of the Olympic rings. The background of the page is light blue with the word 'Olympics' written above the rings.

- This is our athlete insertion webpage. One can fill the form and insert an athlete

A screenshot of a web browser showing a table titled 'athletes'. The table has columns for Athlete ID, Name, Age, Contact Info, Gender, Competes for, and Profession. The data is as follows:

Athelete ID	Name	Age	Contact Info	Gender	Competes for	Profession
6	SERENA WILLIAMS	41	serenawilliams@findme.com	F	1	TENNIS
5	FABIA WHITNEY	23	fabiawhitney@findme.com	F	5	ATHLETICS
4	ABRAHAM DELEON	22	abrahamdeleon@findme.com	M	4	GOLF
3	ANAS ENGLAND	25	anasengland@findme.com	F	3	HOCKEY
2	IWAN WHITE	19	iwanwhite@findme.com	M	2	SOCCER
1	KABIR COHEN	17	kahircohen@findme.com	M	1	BASEBALL

- After successful insertion, users can see the inserted athlete's ID given by database and final version of athletes table.

You have to enter all fields!

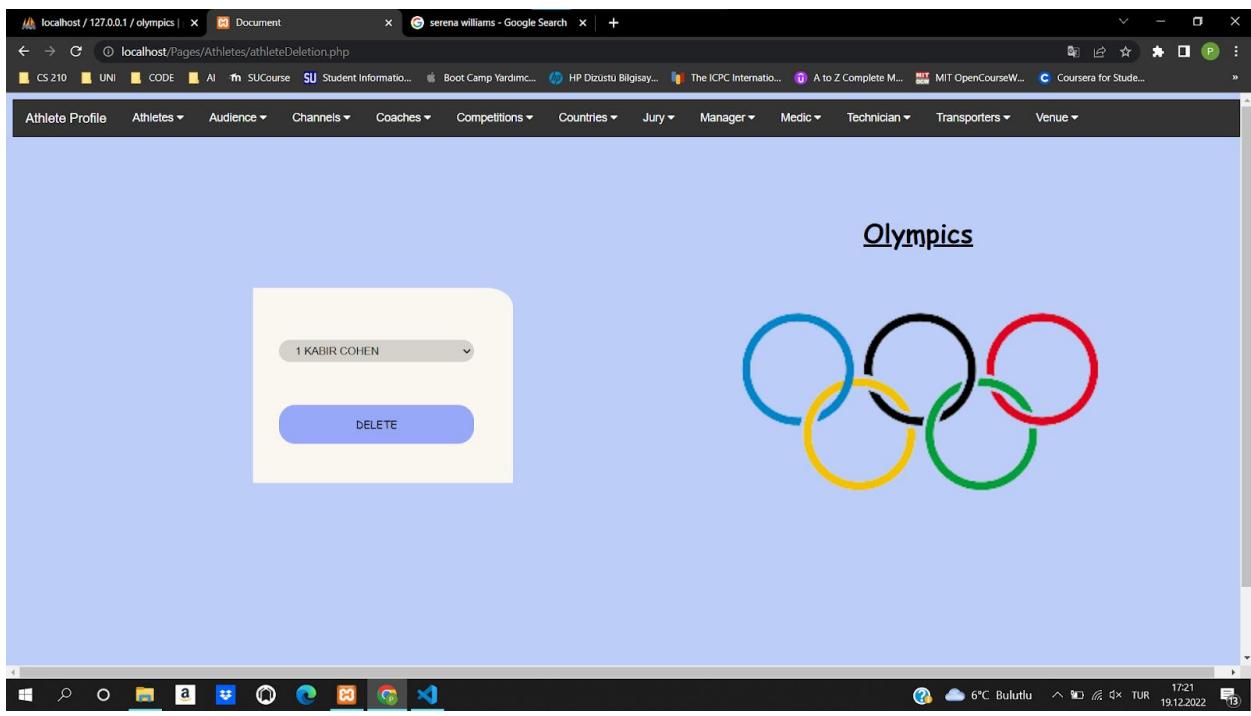

Athlete ID	Name	Age	Contact Info	Gender	Competes for	Profession
5	FABIA WHITNEY	23	fabiawhitney@findme.com	F	5	ATHLETICS
4	ABRAHAM DELEON	22	abrahamdeleon@findme.com	M	4	GOLF

2	IWAN WHITE	19	iwanwhite@findme.com	M	2	SOCCER
1	KABIR COHEN	17	kahircohen@findme.com	M	1	BASEBALL

- If users don't fill all the fields of the form, webpage gives the error above. This applies to all forms.

There is no such country in the database at the moment. Please insert the country into database first.

Athlete ID	Name	Age	Contact Info	Gender	Competes for	Profession
5	FABIA WHITNEY	23	fabiawhitney@findme.com	F	5	ATHLETICS
4	ABRAHAM DELEON	22	abrahamdeleon@findme.com	M	4	GOLF

2	IWAN WHITE	19	iwanwhite@findme.com	M	2	SOCCER
1	KABIR COHEN	17	kahircohen@findme.com	M	1	BASEBALL

- If a country entered by users is not existing on the database, the webpage gives the error above to protect foreign key integrity. This applies to all entities that use a foreign key as an attribute/when entity is in a relationship that has key and participation constraint.

- This is our athlete deletion page. From the dropdown menu, users can choose which athlete to delete.

A screenshot of a web browser showing the 'Athletes' list page. The URL is 'localhost/127.0.0.1/olympics'. The page has a header with navigation links. Below the header, a message 'Deletion succeeded.' is displayed. The main content is a table titled 'Athletes' with columns: Athlete ID, Name, Age, Contact Info, Gender, Competes for, and Profession. The table contains five rows of data.

## Audience:

The screenshot shows a web browser window with the URL `localhost / 127.0.0.1 / olympics`. The page title is "Audience insertion form". The main content area has a light blue background with the word "Olympics" in the top right. On the left, there is a white rectangular form containing fields for "Audience name" (with "Jack Johnes" typed in) and "Competitions IDs" (with a list box showing "1", "2", and "3"). A large image of the Olympic rings is centered on the right side of the page. At the bottom of the form is a blue "Submit" button.

- This is our audience insertion webpage. One can fill the form and insert an audience member

The screenshot shows the same web browser window after the audience member has been inserted. The message "Insertion completed. Ticket number is 7." is displayed at the top. The page title is now "GFG User Details". The main content area displays a table titled "Audience" with the following data:

Audience Name	Audience Ticker Number
RONAN PATEL	3
PEGGY BEAN	1
JANNAT COOK	2
JACK JOHNES	7
GENE MORTON	4
CASSANDRA RIVERA	5

- After successful insertion, users can see the inserted audience ticket number given by database and final version of the audiences table.

Audience name:

**Olympics**

- The insertion above gives an error; one cannot enter the competition ids horizontally because the system recognizes it as one number, it has to be vertical to be accepted.

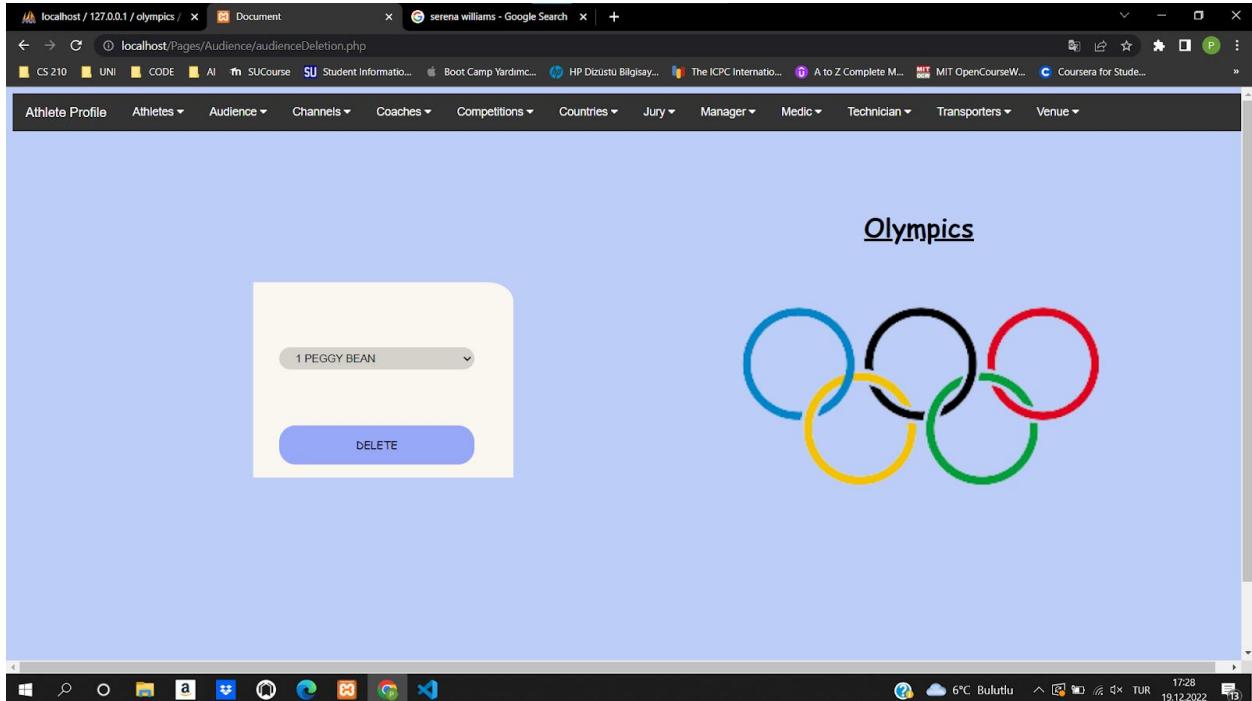

Competitions below can't be found in database. Please register them first: 2 3 4

**Audience**

Audience Name	Audience Ticker Number

### Transport-Athlete

Transporter ID	Transporter Driver	Athlete ID	Athlete Name
4	HASAN PATTERSON	2	IWAN WHITE

### 3. Special Feature: Athlete Profile

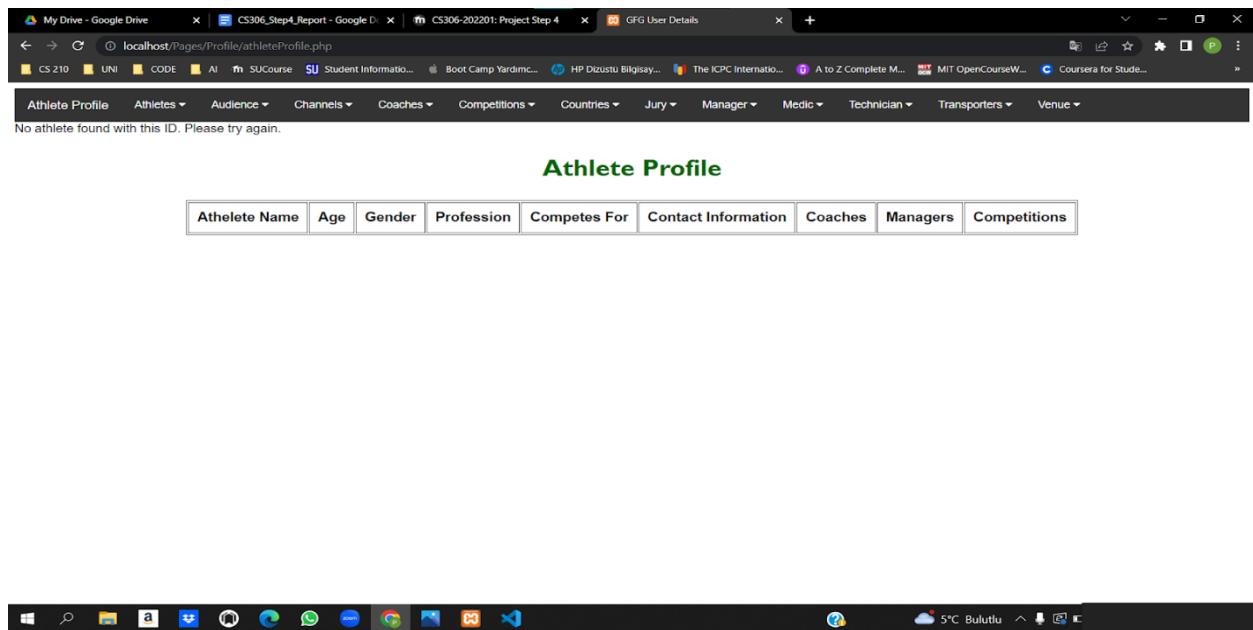

By entering the athlete ID, one can get that athlete's profile.

A screenshot of a web browser window showing the details of an athlete profile. The URL is localhost/127.0.0.1/olympics/. The title of the page is "Athlete Profile". A table displays the following information:

Athlete Name	Age	Gender	Profession	Competes For	Contact Information	Coaches	Managers	Competitions
ANAS ENGLAND	25	F	HOCKEY	FRANCE	anasengland@findme.com	DANIELA POTTER	MADISON COBB	3 HOCKEY SEMI-FINAL 2022-08-12 00:00:00

The browser's address bar shows "localhost/Profile/athleteProfile.php". The taskbar at the bottom shows various icons and the date/time as 19.12.2022.

Athlete profile consists of athlete's attributes such as name, age, gender, profession, compete for, contact information etc. It uses athlete, country, coach, trains, managers, competes\_in and competition tables to gather information about athletes.

If the entered ID doesn't exist on the database, it gives the error message above.

#### EXTRA: Navigation Bar

To be able to access the pages easily we have created a navigation bar. One can drag their mouse on one of the entities and then a dropdown becomes visible. From that dropdown, users can select the operation they want to perform.
